The following is the special report transmitted with the foregoing committee report:

Special Report Relative to Designation of the Old Stock Exchange Building, also known as 30 N. LaSalle St. Building, Chicago, Illinois, as a "Chicago Landmark".

The Committee on Cultural and Economic Development, in this instance, was asked to make a determination for the first time under the new Landmark Ordinance wherein a designation as a Chicago Landmark was opposed by the proprietary interests of the property ownership. We were to arrive at a landmark decision with landmark considerations of landmark designations.

In our deliberations, we were motivated by the criteria to be applied in conducting a landmark survey as outlined by the Commission on Chicago Historical and Architectural Landmarks and established by ordinance of the City of Chicago, namely:

A. Its character, interest or value as part of the development, heritage or cultural characteristics of the City of Chicago, State of Illinois, or the United States.

B. Its location as a site of a significant event.

C. Its identification with a person or persons who significantly contributed to the culture and development of the City of Chicago.

D. Its exemplification of the cultural, economic, social or historic heritage of the City of Chicago.

E. Its portrayal of the environment of a group of people in an era of history characterized by a distinctive architectural style.

F. Its embodiment of distinguishing characteristics of an architectural type or specimen.

G. Its identification as the work of an architect or master builder whose individual work has influenced the development of the City of Chicago.

H. Its embodiment of elements of architectural design, detail, materials or craftsmanship which represent a significant architectural innovation.

I. Its relationship to other distinctive areas which are eligible for preservation according to a plan based on a historic, architectural or cultural motif.

J. Its unique location or singular physical characteristic representing an established and familiar visual feature of a neighborhood, community or the City of Chicago.

Testimony by those in favor of the proposed designation brought out a great deal of evidence as to why this building is important to Chicago. It was stated that the Old Stock Exchange Building, along with several others designed by Adler and Sullivan at approximately the same time, showed a major breakthrough at a time when styles derived from the past dominated architecture.

Adler and Sullivan originated a new style, one that suited the needs of the modern age. Their work followed the principle of "form follows function", function being defined by architectural historian Paul Sprague as "the essence of time". This essence was in turn defined as the shaping of the need for a new type of structure, one that is commonplace in Chicago today—the large office building. The increasing use of elevators allowed the building to be developed upward, and the architects were then confronted with a new problem—designing a commercial building that was taller than it was wide. Sullivan solved the problem visually by developing the idea that a tall building should have a base, a shaft and a terminal point where it meets the sky. According to testimony, the Old Chicago Stock Exchange Building is a fine example of this idea put into practice.

It was further stated that Adler and Sullivan used an ingenious means of producing more prime quality office space, that is, space that faces the street. Bay windows that alternate with the wide "Chicago windows" allowed the developer to gain more prime interior space by projecting the bays over the sidewalk—space which he did not own and on which he did not pay taxes.

It was brought out that design emphasis is placed on the main entrance to the building, the great arch, as a deliberate means of making one aware of the entry and welcoming one to the building.

Much of the testimony in favor of the proposed designation was addressed to the exterior features of the building. Sullivan's beautiful and sensitive exterior ornament, and the role it plays in defining and highlighting the proportions of the building was alluded to by several individuals.

It was noted that the Old Stock Exchange Building and another previously cited possible landmark, the Rookery three blocks south, are powerful symbols of the building development that took place prior to 1900 and caused LaSalle Street to become the financial heart of Chicago. The Old Chicago Stock Exchange Building was important in making LaSalle Street what it is today, and compliments the more modern buildings that themselves developed from the innovative era represented by it.

Submitted for consideration in support of arguments favoring designation of the subject building as a landmark was a bonus proposal which would allow the transfer and sale of development rights to other properties, benefitting the owners of properties designated as landmarks. Serious consideration could not be given to such proposal in the instant case because, at best, such thoughts currently were pure conjecture and could not be offered to parties in interest as an incentive for landmark designation.

The Commission on Chicago Historical and Architectural Landmarks made issue of the profits of the previous owners as arguments citing the financial feasibility of retention, rehabilitation and landmark designation. Your Committee made contact with the previous owners and secured financial statements. An analysis of such statements reflects a profit picture only because cost factors reflected prices at the time of acquisition by the former owners as opposed to current market price plus cost of rehabilitation. For these reasons, your Committee placed little value on such financial statements in arriving at a decision.

General references had been made in testimony before the Commission and reiterated before your Committee as to the financial feasibility of the City of Chicago or some other governmental body acquiring the property and amortizing same over 25 to 30 years to financial advantage. No concrete plan was offered and your Chairman projected inquiry into the rumored interest of the State of Illinois in acquiring the subject property for retention and rehabilitation as a State office building. Your Chairman was advised by the Department of Public Works and Buildings of the State of Illinois that the State had no interest in such acquisition.

The subject property is commonly known as the Old Stock Exchange Building. Experts have testified that the landmark value of the building would be seriously affected if the stock exchange floor itself were not rehabilitated to its original beauty and splendor. The esthetic value of the building is to a great extent dependent upon this nostalgic reality. Esthetic values are important to landmark designation, which cannot be made on architectural considerations alone, as exemplified by the criteria established for the Commission.

The City Council must by law consider the recommendations of the Landmarks Commission as well as the opinion of the Commissioner of Development and Planning. In the instant case, they differ in opinion.

The basic consideration in designating a Chicago landmark is whether the esthetic values outweigh the total cost.

Your Committee made a physical inspection of the entire premises from loft to basement. The building has been gutted from its original state with much of the beautiful Sullivan ornamentation gone. Quoting the national magazine, Buildings (May, 1970), "As it stands now, with all street level stores using modern facades, the Stock Exchange Building contributes nothing more than a hodgepodge of old and new to Chicago architecture." The magazine goes on to say, "Of course, no City can afford to destroy its past for the sake of economy. But it is also impossible to retain all old buildings. Consequently, each City must select the buildings from its past that make some environmental, esthetic or economic contribution to the present."

As to esthetics, experts are divided relative to such value. The Old Landmarks Commission even relegated the subject building to secondary consideration and some prominent architects do not believe the building should be preserved.

We also come to the question of how many landmarks Chicago can have and afford. The predecessor landmarks commission designated 39 buildings. Fourteen were of special merit, of which the Old Chicago Stock Exchange Building was not one. Of the 39, ten were Sullivan buildings. The responsibility of the City Council is to take into consideration *all* of the factors, which includes the money factor—the cost to the people of the City of Chicago.

Conservative estimates indicate that the cost of condemnation of the Old Stock Exchange Building would be about $12,000,000.00 and that an additional $3,000,000.00 would be needed to rehabilitate the building with modern facilities, such as air-conditioning. Estimates also call for $113,000.00 to restore the first floor exterior; $233,000.00 for facade cleaning and replacement of stone lintels on the Washington St. side and $360,000.00 for the restoration of the Exchange Room plus architectural and engineering fees, all making a total of almost another $1,000,000.00. This would bring our cost estimate for re-establishing the Old Stock Exchange Building to approximately $16,000,000.00.

The Committee feels that there are other more important Adler and Sullivan buildings of far greater cultural value and more typical as to beauty and style—and the esthetic value of which are proportionately greater related to the comparative costs. The Committee feels that the esthetic value of the Old Stock Exchange Building does not exceed the relative cost and, in this day of demand to meet urgent financial needs in other areas, the City of Chicago cannot afford the luxury of a building as a landmark that, though it may be treasured for historic value and architectural originality, is too far deteriorated to warrant the cost of rehabilitation. The Committee is confident that the people of the City of Chicago would want better application of their tax dollars, for we are convinced of a resultant dollar deficiency if rehabilitation were attempted—the building would become known as Chicago's White Elephant.

Your Committee therefore recommends that the Old Stock Exchange Building, or the 30 N. LaSalle Street Building, does not warrant landmark designation and asks the City Council to concur in this recommendation.

Respectfully submitted,

(Signed) EDWIN P. FIFIELSKI,
Chairman, Committee on Cultural and Economic Development.

Tribute Paid to Late Det. James A. Alfano, Jr.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward on August 16, 1970, Detective James A. Alfano, Jr., who was shot in the back by vicious sniper fire on August 13, 1970; and

WHEREAS, Detective Alfano was born and raised in Chicago, attended Gompers Elementary School and graduated from Fenger High School. He attended the University of Illinois. He was honorably discharged from the United States Marine Corps on July 6, 1961 after 3 years of service, having achieved the rank of Lance Corporal. He began his service with the Chicago Police Department on February 19, 1962; and

WHEREAS, Detective Alfano was on assignment as a member of the "Gang Intelligence" Unit on Thursday, August 13, 1970 in the vicinity of 67th Street and Stony Island Avenue; he was in the rear of an unmarked police car when he was hit by two bullet fragments fired into the rear of the auto and critically wounded. In 71 hours of dramatic effort to save Detective Alfano's life, physicians literally poured 120 pints of blood into his torn body; and

WHEREAS, During his eight years with the Chicago Police Department Detective Alfano received three commendatory letters from individual citizens, two department commendations and twenty-eight Honorable Mention Awards, which stand as eloquent testimony to his dedication and performance of duty. He exemplified once again the highest and best tradition of the men who selflessly serve the public in the enforcement of the law and choose their careers with the full knowledge that their service might at any moment demand the supreme sacrifice. Detective Alfano risked and sacrificed his life in carrying out his duties to make Chicago neighborhoods safe for citizens who live in danger because of street gangs who abide by no code of decency or morality. If Detective Alfano shall not have died in vain, Chicago's citizens must increase their vigilance toward the end that the power of the gangs is eliminated and that violence will cease, whether it be directed against the citizen or the police; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 24th day of August, A.D. 1970, together with all the people of the City of Chicago, by this resolution, hereby express profound sorrow and regret upon the untimely death of Detective James A. Alfano, Jr., and further express their deep sympathy to his wife Judy, their children, and to his parents, Mr. and Mrs. James Alfano; and

Be It Further Resolved, That as a mark of respect to his memory, this resolution be spread upon the permanent Record of Proceedings of the City Council of the City of Chicago, and that a suitable copy thereof be presented to his widow, Judy.

On motion of Alderman Burke (seconded by Alderman Holman and others) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Tribute Paid to Late Firefighter John P. Walsh.

WHEREAS, Firefighter John Walsh served in the United States Marines Corps from 1942 to 1946 when he was honorably discharged. He began his service with the Chicago Fire Department on June 20, 1950; and

WHEREAS, On July 7, 1970, Firefighter Walsh was working in the basket atop a snorkel unit, diverting water spray at an abandoned warehouse at 1750 North Ashland Avenue, when the burning wall suddenly fell onto the snorkel basket, and he was severely injured. Despite the extensive care he received, he lost his fight for life and died from his injuries on August 16, 1970; and

WHEREAS, Firefighter Walsh was known as an excellent fireman, dedicated to his profession of fighting fires and protecting the lives of Chicago's citizens; now, therefore,

Be It Resolved, That the Mayor and members of the City Council, in meeting assembled this 24th day of August, A.D. 1970, hereby express publicly their sorrow upon the death of Firefighter John P. Walsh and further express their condolences to his mother, Mrs. Peggy Walsh and to his son Patrick; and

(c) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The contractor will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

The contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however,* That in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

13. (The following clause is applicable when the leased space is in a building occupied by tenants or concessionaires in addition to the Government and if the total rental under this lease exceeds $10,000 per year, or, at the sole election of the Government, if the total rental under this lease combined with the total rental under all other Federal Government leases of space in the building which the space covered by this lease is located exceeds $10,000 per year, the lessor agrees to comply with the following provision:)

(a) As used in this section, the term "facility" means stores, shops, restaurants, cafeterias, rest-rooms, and any other facility of a public nature in the building in which the space covered by this lease is located.

(b) The lessor agrees that he will not discriminate by segregation or otherwise against any person or persons because of race, creed, color, or national origin in furnishing, or by refusing to furnish to such person or persons the use of any facility, including any and all services, privileges, accomodations, and activities provided thereby.

(c) It is agreed that the lessor's noncompliance with the provisions of this section shall constitute a material breach of this lease. In the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate this lease, or may pursue such other remedies as may be provided by law. In the event of termination, the lessor shall be liable for all excess costs of the Government in acquiring substitute space, including but not limited to the cost of moving to such space.

(d) The lessor agrees to include, or to require the inclusion of, the foregoing provisions of this section (with the terms "lessor" and "lease" appropriately modified) in every agreement or concession pursuant to which any person other than the lessor operates or has the right to operate any facility. The lessor also agrees that it will take such action with respect to any such agreement as the Department may direct as a means of enforcing this section, including but not limited to termination of the agreement or concession.

U. S. Congress, Federal Aviation Administration and Airline Industry Memorialized to Take Immediate Action to Prevent Hijacking of Airplanes.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, International law has again been outraged by terrorist hijacking activities, wherein four aircraft were commandeered, greatly endangering the lives and safety of hundreds of international air travelers, and attempts were made to hijack a fifth and sixth aircraft but were thwarted; and

WHEREAS, The reckless and irresponsible tactics of international air-pirates, which have hitherto gone unchecked, resulted in the unlawful detention of more than four hundred citizens of the United States, England, West Germany, and Switzerland, who were forced at gunpoint to remain on the desert sands of Jordan as hostages for the hijackers' purposes, and four multi-million dollar aircraft were destroyed in punctuation of the desperate and lawless character of these acts; and

WHEREAS, Inaction and irresolution in dealing with the illicit and dangerous activities on the part of air hijackers, which imperiled life, limb and property of citizens of all nations, tend only to encourage the repetition of such dastardly activities; and

WHEREAS, The United States Congress, which has the power and responsibility to enact laws and take measures which could bring hijacking to an end and the Federal Aviation Administration which regulates airline transactions, routes and activities and the airlines themselves, have thus far failed to undertake comprehensive programs which would thwart and discourage others from embarking on these illegal adventures, to the detriment of air passengers everywhere, must now take immediate ameliorative steps to bring such activity to an end; now, therefore,

Be It Resolved, That the Mayor and City Council in meeting assembled this 16th day of September, 1970, on behalf of the people of Chicago condemn the air hijacking and piracy which has taken place and hereby memorialize the United States Congress, the Federal Aviation Administration and the airline industry to take immediate action toward the end that such activities stop before greater disaster occurs.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

Tenant hereby waives all notice of any election made by Landlord under this agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to Landlord and Tenant, or any other statute, or by the common law during the terms of this agreement. If default to be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Tenant does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Landlord and against Tenant for the amount of rent which may be then due, by virtue of the terms hereof, or of any extension or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Tenant hereby confirms all that said attorney may lawfully do by virtue hereof. Landlord shall have a first lien on Tenant's interest hereunder, and on Tenant's property now or hereafter located in said premises, or elsewhere, to secure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered

in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the premises. The Landlord may collect and receive any rent due from Tenant and payment or receipts thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Referred—PROPOSED RESOLUTION TO MEMORIALIZE GENERAL ASSEMBLY TO AUTHORIZE MUNICIPALITIES TO LICENSE, ETC. REAL ESTATE SALESMEN.

Honorable Richard J. Daley, Mayor, presented the following proposed resolution:

WHEREAS, The General Assembly of the State of Illinois has granted the corporate authorities of the several municipalities the authority to establish Human Relation Commissions to enforce fair housing legislation prohibiting discrimination based on the race, color, creed, ancestry or national origin in the listing, sale, assignment, exchange, transfer, lease, rental or financing of real property for the purpose of the residential occupancy thereof and to prescribe penalties for violation of such ordinances; and

WHEREAS, In addition thereto, the General Assembly has granted to cities the power to license, tax, and regulate real estate brokers, but no such authority to license, tax, or regulate real estate salesmen has been granted; and

WHEREAS, The City of Chicago has enacted an ordinance creating the Chicago Commission on Human Relations, and has enacted the Chicago Fair Housing Ordinance prescribing prohibited conduct with reference to housing; and

WHEREAS, The Commissioners now duly serving on the Chicago Commission on Human Relations have determined through the experience of the Commission, that many, if not most, of the violations of law, including the Fair Housing Ordinance, are perpetrated by salesmen directly and not by real estate brokers, and the City's licensing power over brokers alone is insufficient to protect the public health, welfare and safety; now, therefore,

Be It Resolved, That the City Council of the City of Chicago do hereby memorialize the General Assembly of the State of Illinois to authorize the respective municipalities to license, regulate and otherwise control the conduct of real estate salesmen.

On motion of Alderman Keane the foregoing proposed resolution was *Referred to the Committee on Federal and State Legislation.*

WHEREAS, The number of cyclists have increased dramatically, the available mileage of bicycle routes has not expanded proportionally; and

WHEREAS, In order to provide expanded Recreational Activities to Residents of Chicago, broaden their opportunities for this healthful exercise, reduce traffic congestion and to some measure diminish air pollution; now, therefore,

Be It Resolved, That the City Council conduct hearings, make studies and consider proposals for establishing Bicycle Commuter Routes on low volume Streets, to supplement the Park Bicycle Paths and provide bicycle storage facilities at various locations.

City of Chicago v. Peter J. Kiger, Appellate Court, First District, No. 53621. On September 28, 1970, the Illinois Appellate Court affirmed the judgment of the Circuit Court of Cook County which found the defendant guilty of disorderly conduct and of obstructing traffic. In affirming the judgment, the appellate court held that the defendant chose not to be represented by counsel and therefore was not deprived of a fair trial; that he failed to object during the trial to certain alleged errors and raised these for the first time on appeal rather than on motion for a new trial; and that the trial court in the absence of a jury properly determined the weight to be accorded to the evidence.

City of Chicago v. Carol Jacobs, Illinois Supreme Court No. 42131. On September 29, 1970, the Supreme Court of Illinois affirmed the judgment of the Circuit Court of Cook County which had found the defendant guilty of violating section 193-1(d) of the Municipal Code of Chicago. The reviewing court pointed out that the evidence demonstrated that others who had violated this section of the code were also arrested. The court concluded that the officer's order was lawful and the judgment affirmed.

People ex rel. Rudin v. C. William Ruddell, Illinois Supreme Court No. 42673. On September 29, 1970, the Supreme Court of Illinois pursuant to a petition for a writ of *habeas corpus,* ordered the petitioner discharged from the custody of the Superintendent of the House of Correction. The court's decision was predicated on the rule that a trial court loses jurisdiction when there is an undue delay between the entry of judgment and execution of the sentence, because the rule applies to imprisonment for non-payment of fine, and that the delay involved in this case was unreasonable.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described, after removing trees therefrom, shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified streets shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb line of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter, and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices. The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screening will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screening shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%

Passing No. 40 retained on No. 50 sieve....	7- 22%
Passing No. 80 retained on No. 200 sieve..	5- 13%
Passing No. 200 sieve	4- 8%

(Table 45.11p. 247 State Specifications).

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

The second layer must be placed the same way as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing, the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100% of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

The lime, when sampled, shall immediately be placed in a sealed container and shall be kept sealed. Samples shall be furnished at least 45 days prior to the construction of the pozzolanic base course. The samples submitted will be tested for acceptance of materials and also to determine whether or not they will produce a satisfactory mixture; and will be used to determine preliminary proportions for the mixture composition.

IV-4. COMPOSITION OF MIXTURE.

(a) The lime, pozzolan and aggregate shall be proportioned within the following limits on a dry-weight basis:

PERCENT BY WEIGHT OF TOTAL DRY MIXTURE

Aggregate	79-90	56-78

(b) The actual proportions of lime, pozzolan, water and aggregate will be set by the Engineer before work begins and will be based on tests conducted on mixtures composed of samples of the constituent materials furnished by the Contractor. The right is reserved by the Engineer to make such changes in proportions during the progress of the work as he may consider necessary.

(c) The composition of the mixture shall be such that when molded into cylinders, cured and tested as stated in the following paragraph, each cylinder shall have a minimum compressive strength of 450 psi and a maximum weight loss of 14% after 12 cycles of freezing and thawing.

The molded specimens shall immediately be placed in an oven with forced air circulation for 7 days at 100+3 F. At the end of 7 days, the test cyclinders for compressive strength testing shall be removed from the containers, allowed to cool to room temperature, soaked for four hours capped and broken for compressive strength within one hour of time of removal from water. The specimens to be tested for freeze-thaw resistance shall be cured in the same manner as the strength specimens without the 4 hour soaking period. After curing the specimens shall be subjected to 12 cycles of freezing and thawing in accordance with AASHO Designation: D 560, Sections 5, 9 and 10 pertaining to specimen No. 2 (weight loss specimen).

Mixing operations shall be continued until all ingredients are distributed evenly throughout the mixture and a uniform mixture, free of segregation, is obtained. The engineer shall be the sole judge of the adequacy of mixing. The mixer shall be capable of discharging the mixture without undue segregation. The moisture content at the time of mixing shall be such that the moisture content at the time of compaction will be within 85 to 110 percent of the optimum moisture determined.

The base course shall be laid according to the lines and grades as established by the Engineer. The thickness will be as shown on the standards or plans or as established by the Engineer.

VI-II—All materials shall conform to the requirements of the Standard Specifications for Road and Bridge construction, State of Illinois, adopted August 1, 1968 and the supplemental specifications in effect on the date of invitation for bids.

(a) The sources of supply shall be State approved. Satisfactory evidence shall be presented by the material supplier as to the ability of the source of supply to furnish the aggregate in proper quantity and meet the requirements as to grading and quality.

(b) Gradation of the aggregate shall meet the following requirements:

Passing ½" sieve	60-100%
Passing No. 4 sieve	40- 65%
Passing No. 8 sieve	25- 55%

The Contractor may have the option of deviating from these requirements provided he receive the approval of the Engineer. The Contractor must notify the Engineer a sufficient time in advance of his operation.

(c) If approved by the Engineer, the material may be produced by blending aggregate from more than one source. The components of a blend need not be of the same kind of material. The method of blending must meet the approval of the Engineer. The sources of material and the blending proportions shall not be changed during the progress of the work without written permission from the Engineer.

(d) The bituminous materials used in the mixture shall be asphalt cements of 85-100, 100-120, or 120-150 Penetration grade. The same grade of bituminous material shall be used throughout the work. The Engineer reserves the right to specify the grade to be used. The percentage of residual bitumin shall be 3 to 6%. The Engineer may make such changes in proportions during the progress of the work as he may consider necessary.

(e) *Samples and Tests.*

A ½ gallon sample of the bituminous aggregate mixture for each 5,000 tons produced, shall be taken by the Engineer for extraction tests. A minimum of three samples shall be submitted. The sample shall be a composite sample taken from at least 5 trucks. A one-quart sample of the bituminous material being used shall be taken by the Engineer at the same time the bituminous aggregate mixture sample is taken. The sample shall be taken from the line leading to the asphalt bucket or pug mill spray bar or directly from the asphalt bucket or spray bar. Paving Asphalt shall be submitted in a one-quart friction top can.

(f) *Mixture Composition and Control Factors.* The Contractor, at his expense, shall submit a sample of 100 pounds of the aggregate to the Engineer which he proposes to use in the bituminous mixture. The sample submitted to the Engineer when mixed with the designated grade of asphalt shall produce a satisfactory bituminous mixture that will have a strength of at least 100 pounds greater than the minimum requirements shown on the plans. If the material will not produce a satisfactory mixture meeting this requirement, the Contractor shall submit a material that will comply.

If the aggregate furnished for design purposes contains some crushed material, the Contractor shall submit with the sample a statement giving the percentage of plus No. 4 material that is crushed. Throughout the improvement this percentage shall be maintained within a minus 5 percentage points of this amount.

(g) The mix to be used shall be prepared as required by the appropriate state specification.

(h) The Engineer may order any tests that he may deem necessary to insure the quality of the work.

VI-III—*Construction Procedure.*

(a) Transportation of bituminous mixes shall be governed by Article 46.14 of the Standard State Specifications.

(b) The subgrade shall be prepared as required in Section II of these specifications. The Committee on Finance submitted a report recommending that the City Council pass the following proposed ordinance transmitted therewith:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be, and he is hereby authorized and directed to execute, the Chief Engineer to approve, and the City Comptroller to accept and file for a record upon the approval of the Corporation Counsel, a certain permit granting the Commonwealth Edison Company permission and authority to attach certain electrical conduits and cables under the east roadway deck of the new N. Western Avenue Bridge, which permit is in form and substance as follows:

CITY OF CHICAGO
DEPARTMENT OF PUBLIC WORKS
CHICAGO, ILLINOIS.

Permit Granting Commonwealth Edison Company Permission and Authority to Suspend with Hangers 6 Four-Inch Asbestos Cement Conduit Ducts and Cable Under East Roadway Deck of New N. Western Avenue Fixed Bridge Over North Branch of Chicago River, M.F.T. Section: Western Ave. 2424.1 C.S.

Whereas, Commonwealth Edison Company, 72 West Adams Street, Chicago, Illinois, hereinafter called the "Petitioner", requests permission and authority from the City of Chicago, Department of Public Works, hereinafter called the "Department", to attach, operate and maintain six (6) - four (4) inch Asbestos Cement Conduit Ducts and Cable under the east roadway deck of the new N. Western Avenue Fixed Bridge; and

Whereas, the additional weight of said installation on an existing highway structure will decrease the load carrying capacity of the highway structure available to the public or on a new highway structure will require an increase in structural design by an amount estimated by the Department to be valued at One Thousand Four Hundred Twenty-six Dollars and Eighty Cents ($1,426.80); and

Whereas, the Petitioner, realizing an advantage accruing to it in the form of an overall savings in installation and maintenance costs, should reimburse the Department for the said estimated value; and

Whereas, the Petitioner now operates under a Franchise Agreement with the City of Chicago, and said Franchise Agreement being also conditioned on the performance of all its work in the City of Chicago, the cleanup, and the restoration of street facilities in a manner satisfactory to the Commissioner of the Department or his duly authorized agent, and on holding the City of Chicago and the Department harmless on account of all claims for damages which may occur to persons or property, including the property belonging to the City of Chicago, arising out of the construction, operation and maintenance of all its facilities in the City of Chicago and also the aforesaid six (6) - four (4) inch Asbestos Cement Conduit Ducts and Cables on said bridge structure.

Now, Therefore, in consideration of the sum of One Thousand Four Hundred Twenty-six Dollars and Eighty Cents ($1,426.80), the Department hereby grants permission and authority to the

Petitioner to construct, operate and maintain six (6) - four (4) inch Asbestos Cement Conduit Ducts and Cables on the new N. Western Avenue Fixed Bridge, subject to the following additional terms and conditions:

1. The Petitioner shall furnish, at its own expense, all materials, labor and pay all maintenance costs of said six (6) - four (4) inch Asbestos Cement Conduit Ducts and Cables and its attachments, except inserts that may be installed at the time of construction on the new bridge. The Petitioner further understands and agrees that the maintenance of said six (6) - four (4) inch Asbestos Cement Conduit Ducts and Cables includes but is not limited to the cleaning and painting of the entire six (6) - four (4) inch Ducts including all fixtures, brackets and attachments thereto, and that the time, manner and type of such cleaning and painting shall be as directed by the Department.

2. The proposed work and method of construction to be done hereunder shall be located and constructed in accordance with the description and special provisions, and the Petitioner shall thereafter operate and maintain said six (6) - four (4) inch Ducts to the satisfaction of the Commissioner or his duly authorized representative.

3. The Petitioner shall assume all liability for interference with or access to existing utilities or navigation lights on account of the installation of said six (6) - four (4) inch Ducts.

4. The Petitioner, its successors or assigns, shall assume all risk and liability for damages or injury to persons or property on account of the work of installation or maintenance of said six (6) - four (4) inch Ducts and shall also be liable for any damage that may be cause to said new N. Western Avenue Fixed Bridge due to the attachment of the six (6) - four (4) inch Ducts to the bridge structure.

5. The Petitioner agrees to use only a minimum number of machines or other equipment that may, by necessity, be caused to be parked in a traffic lane on the bridge, which equipment may obstruct the flow of traffic across the said bridge, while performing any work pursuant to the permission herein granted, and shall take all necessary precautions to protect traffic by the use of signs, signals, flagmen or watchmen. One-way traffic shall be maintained around such obstructions at all times.

6. The Department agrees to take due care in performance of maintenance and operation activities on the bridge structure to prevent damage to the said six (6) - four (4) inch Ducts due to such activities. Should the City's construction on any operation of said bridge facility require any alteration or change of location of the improvement called for in this permit, such alteration and change of location shall be made by the Petitioner upon a written request by the Commissioner without expense to the City of Chicago; or should the Petitioner fail to make satisfactory arrangements to comply with this request within 60 days, the City reserves the right to perform the necessary work or remove the installation and bill the Petitioner for the costs incurred. In the case where utility facilities are attached to an existing bridge that is to be dismantled, reconstructed or relocated and requires the Petitioner to alter the attached facilities or to move to a new structure, then this permit will be terminated and a new permit with proper assessment will be required.

7. The Petitioner agrees that the permission herein granted to install six (6) - four (4) inch Ducts on the above designated bridge structure is not considered a franchise and will be terminated without reimbursement of the assessment two years after the date of this permit if six (6) - four (4) inch Ducts are not installed and in operation in accordance with the terms of this permit.

8. The permission herein granted is effective insofar only as the Department has jurisdiction and does not presume to release the Petitioner from complying with any existing statutes in the construction, operation and maintenance of said six (6) - four (4) inch Ducts.

This permit is hereby given, accepted and its provisions agreed on this ..... day of....., 19.....

"71-6. The strength of engineered brick and concrete masonry f'm shall be verified by field tests made in accordance with Section 4.2 of SCPI 1969 for engineered brick masonry and Section 3.2 of NCMA 1970 for engineered concrete masonry. "b) When the least clear dimension of the longitudinal vertical joint or core is less than 2 inches, the maximum height of grout pour shall be limited to 12 inches. When the least clear dimension of the longitudinal vertical joint or core is 2 inches or more, the maximum height of grout pour shall not exceed 48 times the least clear dimension of the longitudinal joint or core for coarse grout nor 64 times for fine grout, but shall not exceed a height of 12 feet. Grout shall be agitated or puddled during placing to insure complete filling of the grout space.

"c) When grouting is stopped for one hour or longer the grout pour shall be stopped 1½ inches below the top of a masonry unit. Masonry bonders (headers) shall not be used, but metal wall ties may be used to prevent spreading of the wythes and to maintain vertical alinement of the wall.

"71-9. In addition to the requirements of Chapter 4 of NCMA 1970, the following requirements apply to the placing of grout in engineered concrete masonry:

"a) All engineered concrete masonry shall be built to preserve the unobstructed vertical continuity of the cores to be filled with grout. Mortar "fins" protruding from joints shall be removed before placing grout.

"b) The minimum continuous clear dimensions of vertical cores shall be 2 by 3 inches. In filling vertical cores, the grout pour shall not exceed 4 feet in height unless cleanouts are left open at the bottom masonry course of each core to be reinforced and such cleanouts closed only after inspection of the core space and the setting of vertical reinforcement in fixed position.

The top of the unfilled cores below such horizontal beams shall be covered to confine the grout fill to the beam section. No materials shall be used which destroys the bond between courses. Grouting of beams over openings shall be done in a continuous operation. All grout shall be puddled in place to insure complete filling of cores and incasement of reinforcement.

Those periods may be reduced to 24 and 48 hours if high early strength cement is used.

"71-11. Buildings over 4 stories in height shall have a degree of continuity and ductility provided in the building system that will develop a reasonable resistance to progressive failure after an initial local failure of a column, or part of a bearing wall due to an accident, tornado or similar incident has occurred.

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward on October 16, 1970, Patrolman John J. Matonich, who was brutally shot to death by an escaping robber; and

WHEREAS, Patrolman Matonich, an honorably discharged Marine Corps Corporal with 9 years of service on the Chicago Police Force, was a member of the Maxwell Street Task Force, regularly assigned to duty at the Chicago Stadium. On Friday Evening October 16, 1970, while on duty at the Chicago Stadium, Patrolman Matonich with Sgt. Timothy Allman walked over to see if they could aid a driver of a cab which had struck two parked cars, unaware that the cab in fact was driven by a robber who moments earlier had robbed the driver and forced him out of the vehicle. Sgt. Allman opened the door of the cab and narrowly missed death as the driver fired a shot at him which went past his head. Matonich fired three shots, and the gunman slumped. The death of Patrolman Matonich makes everyone aware that the senseless factor in his death places upon the job of every policeman the ultimate requirement of bravery; they are men who choose to do a job which could kill them as it did Patrolman Matonich and he and they deserve every citizen's highest respect and admiration; now, therefore,

Court Decisions.

Also communications from the Law Department addressed to the City Council, signed by Howard C. Goldman and Daniel Pascale, Assistants Corporation Counsel, and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

American National Bank, Trustee, et al, Plaintiffs-Appellees, v. City of Chicago, Defendant-Appellant, Illinois Appellate Court No. 52145. On October 13, 1970, the Appellate Court of Illinois reversed the judgment of the Circuit Court of Cook County and remanded the case to the Court with directions to dismiss the complaint. The appeal was taken by the defendant. On appeal the reviewing court reversed because the record demonstrated that the plaintiffs had failed to exhaust the local remedies available to them. The Appellate Court stated that the local legislative body had to first be given the opportunity to consider the lesser zoning reclassification.

William Keen, Plaintiff-Appellant, v. City of Chicago and James B. Conlisk, Defendants-Appellees. Illinois Appellate Court No. 54528. On October 21, 1970, the Appellate Court of Illinois affirmed the judgment of the Circuit Court of Cook County which judgment was adverse to the plaintiff. The plaintiff had brought an action in detinue to recover the sum of $1,180.00. The Appellate Court opinion reaffirms the rule that in an action of detinue the plaintiff must rely on his own right to the fund and not on the alleged wrongful detention by the defendant. The opinion held the finding of the trial court that the plaintiff was not entitled to the money was not against the manifest weight of the evidence.

Chicago Title and Trust Company, as Trustee, Plaintiff-Appellee, v. City of Chicago, Defendant-Appellant, Illinois Appellate Court No. 52585. On October 15, 1970, the Appellate Court of Illinois reversed the declaratory judgment theretofore entered in favor of the plaintiff by the Circuit Court of Cook County. The reviewing court reversed the judgment for the following reasons: the plaintiff had failed to overcome the presumption of the validity of the ordinance by clear and convincing evidence; the zoning was consistent with the bulk of the surrounding uses; the plaintiff purchased the property with knowledge of the existing zoning; and that plaintiff's evidence only made debatable the reasonableness of the ordinance, in which case the zoning classification must be upheld.

People ex rel. Fernando Ceja, Plaintiff-Appellee and Cross-Appellant, v. Wilson, et al. Defendants-Appellants and Cross-Appellees, Illinois Appellate Court Nos. 53199, 53264 (Cons.). On October 21, 1970, the Appellate Court of Illinois reversed the Circuit Court of Cook County which had ordered a writ of mandamus to issue against the named defendants directing them to withdraw and cancel the resignation of the plaintiff, to reinstate him to classified status, and to reimburse his back pay. The Appellate Court held that Ceja had, first of all, failed to introduce proof of his clear right to a writ of mandamus. It stated that further there was no showing of a duty on the Superintendent of Police to allow him to withdraw his resignation, accordingly the finding of abuse of discretion by the trial court was inapplicable and there was no basis for the mandamus to issue.

Eugene Manion and Confederation of Patrolmen, Plaintiffs-Appellants, v. Franklin M. Kreml, Morgan F. Murphy, Paul W. Goodrich, Theophilus M. Mann and William L. McFetridge, as members of the Police Board of the City of Chicago, and William E. Cahill, Quentin J. Goodwin and Reginald DuBois, as members of the Civil Service Commission of the City of Chicago and the City of Chicago, a municipal corporation, Defendants-Appellees. Illinois Appellate Court No. 54169. On October 27, 1970, the Illinois Appellate Court rendered a decision affirming the judgment of the Circuit Court of Cook County which had upheld the validity of a rule of the Police Board of the City of Chicago requiring Chicago Patrolmen to be residents of the City. The plaintiffs urged the court to view the residence requirement a rule only the Civil Service Commission could make, and that there was no such rule made by them. In rejecting this argument and in affirming the judgment of the Circuit Court, the Appellate Court held that: "the requirement of residency is more properly left to the decision of that agency responsible for the mechanics of operating the Police Department".

Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided*, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

Part IV—PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided*, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

Part IV–PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

Article X

This agreement shall not and will not, nor shall any copy thereof, or any statement, paper or affidavit, in any way or manner referring hereto, be filed in the office of the Recorder of Deeds of Cook County, Illinois, or in any other public office, by Tenant or anyone acting for Tenant and that if the same be so filed, this agreement and each and every provision hereof shall, at the option of Landlord, be and become absolutely null and void and Landlord may declare such filing a breach of this agreement.

Tenant hereby waives all notice of any election made by Landlord under this agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to Landlord and Tenant, or any other statute, or by the common law during the terms of this agreement. The acceptance of rent, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether according to any statutory provisions or not, or any act or series of acts, except an express written waiver, shall not be construed as a waiver of Landlord's right to act without notice or demand or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this agreement.

If default be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Tenant does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Landlord and against Tenant for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Tenant hereby confirms all that said attorney may lawfully do by virtue hereof. Landlord shall have a first lien on Tenant's interest hereunder, and on Tenant's property now or hereafter located in said premises, or elsewhere, to secure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the premises. The Landlord may collect and receive any rent due from Tenant and payment or receipts thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

There shall also be incorporated in said agreement between said Illinois Central Railroad Company and the Village of East Hazel Crest, a provision that the same shall not be assigned or transferred by either party, and the said agreement shall further provide that the Village of East Hazel Crest, will not sell or give away any portion of the water supply to any other municipality, or any consumer of water located or residing outside the territorial limits of the Village of East Hazel Crest, except the Illinois Central Railroad Company without first securing the consent in writing of the Illinois Central Railroad Company and the City Council of the City of Chicago so to do, and said agreement shall provide that all plans and specifications of proposed water works improvements of the Village of East Hazel Crest must be approved by the Commissioner of Water and Sewers of the City of Chicago and shall contain a further provision that any and all rights of the Village of East Hazel Crest thereunder shall be subject to the terms and conditions of the water supply contract No. ..... between the City of Chicago and the Illinois Central Railroad Company, dated the ..... day of .....A.D. 19.....

(12) If at any time the said meter or meters shall fail to register correctly the quantity of water furnished and taken hereunder, or shall fail to register the flow of water through said meter or meters, the unregistered, under-registered or over-registered amount of water furnished and taken shall be determined by taking an average of twelve (12) preceding readings of such meter or meters exclusive of deficient or excessive readings. Where said meter or meters have been installed for a period of less than one (1) year or where less than twelve (12) competent readings exist, such average or estimate may be based upon a lesser number than twelve (12) readings taken preceding or subsequent to such incorrect or stopped registrations. In both instances, the Commissioner of Water and Sewers of the City shall determine which are excessive or which are deficient readings and shall also determine the number of months upon which such estimate is to be based.

(13) The Railroad Company at its own cost and expense, shall provide, make and keep in repair all feeder mains, connections, meter vaults, receiving tank or tanks, booster or other pumps and slow-acting valves, or other appliances deemed necessary by the Commissioner of Water and Sewers of the City at the point of connection herein designated. (14) The Railroad Company shall provide, install, maintain and operate at its own cost and expense and at such locations as shall be designated by the Commissioner of Water and Sewers of the City the following:

A shut-off gate or gates, reservoir or reservoirs of sufficient capacity to store not less than the maximum day's supply of water; receiving tank or tanks, booster or other pumps, slow-acting valves and such other appliances or devices as may be required by said Commissioner of Water and Sewers for the purpose of increasing, decreasing, and otherwise controlling the water supply furnished and taken hereunder, said equipment and appliances to be of such type, size and design as shall be satisfactory to and approved by said Commissioner of Water and Sewers, and the entire installation thereof shall be under the direction of and performed in a manner satisfactory to and approved by said Commissioner of Water and Sewers. (15) The water supply furnished and taken hereunder shall be drawn by the Railroad Company at a substantial uniform rate of flow throughout twenty-four (24) hours of each day of the year.

It is hereby agreed that the Commissioner of Water and Sewers of the City and his authorized representatives shall have access to and the right to adjust and control valves and meters in order to limit the flow of water as herein provided and for the purpose of meeting any and all emergencies and necessitous requirements.

(16) The Railroad Company agrees to comply with any and all sanitary regulations of the City and the present and future rules, regulations and instructions of the Department of Water and Sewers of the City applicable to cross-connections and dual water supplies as are in force in the Chicago Water System. The failure, neglect or refusal on the part of the Railroad Company to make promptly and properly such changes in its piping, to maintain tightness or to eliminate undesirable connections upon notice in writing so to do from said Commissioner of Water and Sewers, shall furnish sufficient grounds for the City to shut off the water and discontinue the service hereunder until changes and corrections in said piping or connections required by the City are made by the Railroad Company.

(17) The Railroad Company agrees to prevent excessive use and waste of water.

(18) The Railroad Company agrees to appropriate annually sufficient money or so much thereof, as may be necessary, to provide sufficient funds for the payment of the water furnished by the City hereunder.

(19) It is further agreed that the City may either in law or equity, by suit, mandamus or other proceedings, enforce or compel performance of any and all covenants herein contained.

(20) In order to safeguard its water supply received hereunder and the City's water supply, the Railroad Company hereby agrees to maintain a safe water supply throughout its system and to provide, maintain and operate at all times during the period of this contract, chlorinating equipment or other equally effective health protecting process equipment of such kind and capacity that a proper chlorine residual or similarly effective result may be carried throughout its water supply system. All proposed water works improvements, which must be approved by the Commissioner of Water and Sewers of the City, shall be disinfected in accordance with the requirements of the Department of Water and Sewers of the City; said water works improvements shall not be placed into service until approved as to sanitary quality by the City.

(21) The City may adopt any protective or health measures it deems advisable or desirable for the benefit of its water consumers, such as the fluoridation of its water, in any manner that the Commissioner of Water and Sewers of the City shall see fit.

(22) The Railroad Company agrees to notify the Commissioner of Water and Sewers of the City as promptly as possible of all emergency and other conditions which may directly or indirectly affect the quality of the water received hereunder and the City's water supply and further agrees that the duly authorized Engineers and Inspectors of the City shall be allowed to make inspections and required tests of the quality of the water supply as

received hereunder, as well as the quality of the water within the Railroad Company's distribution system.

(23) The Railroad Company agrees not to resell or permit any water furnished hereunder to be used to supply any other municipality or any consumer of water located or residing outside the territorial limits of the Railroad Company's Markham Yard except if and when it should be specifically authorized so to do by the City Council of the City.

(24) The Railroad Company agrees to use City water exclusively during the period of this contract.

(25) The Railroad Company further agrees not to sell, lease or give any interest in or right or privilege to utilize its water supply main or mains to any other municipality or any consumer of water whose premises are located outside the territorial limits of the Railroad Company's Markham Yard and further agrees not to permit any connection to be made to its water supply main or mains, except to supply water within the territorial limits of the Railroad Company's Markham Yard, without first securing the consent in writing of the City Council of the City so to do.

(26) At the end of each calendar year during the term of this contract and not later than March 31st of each year, the Railroad Company agrees to submit to the Commissioner of Water and Sewers of the City a report in writing showing in cubic feet or gallons the amount of water furnished the Railroad Company and the amount in quantity and charges billed by it to consumers during the preceding year and to furnish such other information regarding billing, collections and delinquencies as may be requested from time to time by said Commissioner of Water and Sewers.

(27) At the end of each billing period, but at least quarterly, the Railroad Company agrees to submit to the Commissioner of Water and Sewers of the City a complete list of all water consumers of the Railroad Company located or residing outside the territorial limits of the Railroad Company's Markham Yard, showing name, location, character of occupancy, amount of water in cubic feet or gallons furnished and charges billed.

(28) To secure prompt payment of the water bills, the City shall have the right at any time to require the Railroad Company to pay in advance a sum of money estimated by the Commissioner of Water and Sewers of the City to be equal to the cost of water required by the Railroad Company, for a period of ninety (90) days at the then prevailing metered rate, which said advance payment the Railroad Company hereby agrees to make upon demand.

(29) The City shall not be responsible in damages for any failure to supply water or for interruption of the water furnished hereunder. The Railroad Company agrees to save and keep harmless the City from all damage to real and personal property occasioned or caused by the making of the water connection or connections herein referred to, or caused by the furnishing of water hereunder, and shall also keep and save harmless the City from all damage of any kind, nature and description which may arise as the result of the making of this agreement.

(30) The City reserves the right to its Commissioner of Water and Sewers to decide all questions arising as to the proper performance of this contract.

(31) In furtherance and not in limitation of this contract, it is mutually agreed that all rights of the City of Chicago and the Illinois Central Railroad Company under the water supply contract No. 17980 dated April 26th, 1956 between the City of Chicago and the Illinois Central Railroad Company which expired April 26th, 1966 and the amended contract No. 18317 dated August 21st, 1956 between the City of Chicago and the Illinois Central Railroad Company to permit the Illinois Central Railroad Company to furnish a supply of water to the Village of East Hazel Crest which expired April 26th, 1966 and all rights of either party arising from the delivery of water prior to the date of the execution of this agreement are extinguished, except for the express reservation of the right of the City to obtain payment for, or to enforce collection of any unpaid water charges accruing prior to the date of execution of this agreement.

(32) If the Railroad Company shall refuse, neglect or fail to pay promptly the water bills rendered for the water supplied it hereunder within the time or times prescribed by the Ordinances of the City, or if the Railroad Company shall fail to comply with or perform any of the conditions or obligations on their part to be complied with or to be performed hereunder, and if after such failure the City shall deliver at the office of the Illinois Central Railroad Company, addressed to the Vice-President and Chief Engineer of the Illinois Central Railroad Company, a notice in writing of its intention to shut off the supply of water on account of such failure, refusal or neglect, then the City shall have the right to shut off the supply at the expiration of five (5) days after the giving of such notice, and to terminate this contract unless within such five (5) days the Railroad Company shall make good such failure. The shutting off of the supply of water for any such cause shall not release the Railroad Company from its obligation to make such payments of any amount or amounts due or to become due in accordance with the terms hereof.

(33) No assignment or transfer of this agreement shall be made by the Railroad Company.

(34) In any action brought at law or in equity under the terms of this contract, the Railroad Company hereby waives any defenses it may have by virtue of its operation as a common carrier or in any other capacity or in any other function that it exercises.

(35) No officer, official or agent of the City has the power to amend, modify or alter this agreement or waive any of its conditions or to bind the City by making any promise or representation not contained herein.

(36) This agreement is subject to cancellation by the City of Chicago in the event the Supreme Court of the United States of America or any other court of competent jurisdiction decrees that the City has no right to contract for, sell, disperse, distribute or limits the amount of water the City may use for domestic pumpage or otherwise places a burden on the City in connection with the withdrawal of water from Lake Michigan, or otherwise dispose of water from Lake Michigan to any municipality or user residing outside of the limits of the City of Chicago.

The following is said ordinance as passed:

WHEREAS, The Commission on Chicago Historical and Architectural Landmarks has recommended that the structure known as the Carson Pirie Scott & Company Building, located on the southeast corner of State and Madison Streets, Chicago, Illinois, be designated by the City Council as a Chicago Landmark; and

WHEREAS, The Commission found that the building meets the criteria as set forth in Chapter 21, Section 21-64(b) of the Municipal Code of Chicago, namely:

Its character, interest and value are part of the development, heritage and cultural characteristics of the City of Chicago, State of Illinois and the United States.

It exemplifies the cultural, economic, social and historic heritage of the City of Chicago.

It embodies distinguishing characteristics of an architectural type.

It is the work of an architect whose individual work has influenced the development of the City of Chicago.

It embodies elements of architectural design, detail, materials and craftsmanship which represent a significant architectural innovation.

Its location and physical characteristics represent an established and familiar visual feature on State Street, a major business street in the "Loop" area of the City of Chicago.

Its position in the history of architecture and especially in early modern architecture is emphatically emphasized, illustrated and discussed in almost every book or article on the subject; and

WHEREAS, The design of the Carson Pirie Scott & Company Building, its frank expression of open interior space, its simplicity, and its refined proportions derived directly from the underlying iron and steel frame, epitomize Louis H. Sullivan's architectural philosophy of "form follows function". It is this expression that best characterizes the "Chicago School" of architecture. The building is distinguished as one of the early expressions of American department stores, because it is flexible inside as well as being stunning on the outside; and

WHEREAS, The Commission has concluded that the Carson Pirie Scott & Company Building is truly important to Chicago, and deserves to be preserved, protected, enhanced, rehabilitated and perpetuated. The Commissioner of Development and Planning of the City of Chicago and the City Council Committee on Cultural and Economic Development have concurred in the Commission's recommendation that the Carson Pirie Scott & Company Building be designated as a Chicago Landmark; now, therefore,

To the Honorable, The City Council of the City of Chicago:

GENTLEMEN—At the request of the Superintendent of Police, I transmit herewith an Ordinance authorizing the filing of two applications with the Illinois Law Enforcement Commission for the purpose of funding the purchase of Riot Helmet Face Shields and 27 suits of protective body armor, each to be utilized by police officers assigned to riot and civil disturbance situations.

Tribute Paid to Late Congressman William L. Dawson.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward William L. Dawson, distinguished leader in the Democratic Party and Congressman from the First Illinois Congressional District, on November 9, 1970; and

WHEREAS, Mr. Dawson was born in Albany, Georgia on April 26, 1886. He attended Albany Normal School and was graduated with honors from Fisk University in Nashville, Tennessee. He served as a First Lieutenant in the 365th Infantry in World War I. After the war he and his wife came to Chicago possessing only one suitcase and Ten Dollars. He attended Chicago Kent College of Law and Northwestern University Law School; upon graduation from Law School he entered the private practice of law; and

WHEREAS, Mr. Dawson began his long and distinguished career of public service when he was elected State Central Committeeman from the First Illinois Congressional District in 1930; he served as Alderman of the Second Ward from 1933 to 1939. He was elected Democratic Committeeman of the Second Ward in 1939 and held that position until his passing. In 1942 Mr. Dawson was elected to Congress from the First Illinois Congressional District and was successively re-elected for 14 terms, serving a total of twenty-eight years. During his service in Congress he was Chairman of

the Government Operations Committee for twenty years and also served as a member of the House District Committee, responsible for administering the District of Columbia. Mr. Dawson also served as Secretary and Vice-Chairman of the Democratic National Committee and as Vice-Chairman of the Cook County Democratic Central Committee; and

WHEREAS, Mr. Dawson was a strong leader and a vital voice for progress in this city where he labored so effectively for so many years to advance the cause of racial justice and the general welfare. His strength of character, his quiet persuasion, the unquestioning loyalty of his following, which was nationwide, made him a much beloved and commanding figure. He will be remembered as a pioneer in the quest for black peoples freedom. His passing represents a tragic loss of a great American, who worked to get people together to achieve common goals; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 16th day of November, A. D. 1970, do hereby express publicly their great sorrow at the passing of a former colleague and friend, Congressman William L. Dawson, a distinguished public servant, and do acknowledge with regret the void that his passing leaves in this community and in the nation, and extend to his wife Nellie and other members of the family, their sincere sympathy; and

Be It Further Resolved, That a suitable copy of this memorial resolution be presented to his widow, Nellie.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman (seconded by Aldermen Metcalfe, Hubbard, Frost and Biggs) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

The aldermen all praised the late Congressman highly for many reasons, not the least of which was that he had been a "doer" not a "talker". He was cited for his pride in being a black man, proud that the Lord had so created him. He was noted for his efforts in procuring legislation which would permit black people to live wherever they wished, one of his most outstanding accomplishments. He was praised as a tireless worker, one who had pioneered in efforts to put his people into governmental positions. He also led efforts to secure not only civil rights, but also to secure economic rights. It was stated that he had left a legacy of good deeds, a legacy that could serve as a pattern for those who would follow in his footsteps.

Honorable Richard J. Daley, Mayor, thereupon presented to the Council the Reverend Clarence Cobb, who had been a warm and personal friend to the late Congressman. In addressing the Council the Reverend Cobb spoke of Congressman Dawson's great and constant concern for poor people. He too spoke of the pride the late Congressman had in his color and that he had been proud of his convictions, believing always that right was right. He concluded by saying that Chicago would be a better place for having known William L. Dawson.

Honorable Richard J. Daley, Mayor, also praised the late Congressman, stating that he had never been a pretentious man, rather one who had been proud of his humble beginnings. He expressed his sympathy to the family of the late Congressman.

Trustees of University of Illinois and Members of Illinois Board of Higher Education Memorialized to Resist and Defeat All Efforts Having Effect of Diminishing, Etc. Facilities at Chicago Circle Campus.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Recent proposals have been presented to the Illinois Board of Higher Education which would affect a reorganization of the system of higher education, particularly, with respect to the diminution of the educational opportunities and standing of the Chicago Circle Campus by severing said campus from the University of Illinois and joining it with Northern Illinois University; and

WHEREAS, The Chicago Circle Campus of the University of Illinois has been established as a major four-year institution of higher learning in the largest urban area in this State only after many years of concerted and intensive efforts by the civic, educational, and governmental leaders of the community and the Chicago Circle Campus now stands as one of the most modern, distinguished, effective, and influential universities not only in the State of Illinois but in the entire country; and

WHEREAS, The Chicago Circle Campus of the University of Illinois has and will serve the educational needs of the three and one-half million citizens of the City of Chicago, and also the educational needs of the entire metropolitan Chicago area; and

WHEREAS, The great and pressing goal to be attained by institutions of higher learning is the expansion, improvement, advancement and progress toward greater higher educational facilities which will provide opportunities for college training to the various economic and cultural groups living within the Chicago metropolitan area so that they may all compete for leading positions in industry, business, government and education; and

WHEREAS, The Chicago Circle Campus admirably fulfills the need of a first-class institution of higher learning responsive to the changing needs of an urban society such as the City of Chicago and Chicago metropolitan area and is one of the many examples wherein major colleges are located within metropolitan areas such as the City University of New York in New York City, the University of California at Los Angeles, Wayne State University in the City of Detroit, the University of Minnesota at Minneapolis, and a new campus of the University of Missouri in St. Louis, to name a few; now, therefore,

Be It Resolved, By the Mayor and City Council of the City of Chicago in meeting assembled this 16th day of November, 1970, hereby memorialize the Trustees of the University of Illinois and the members of the Illinois Board of Higher Education to resist and defeat any and all efforts having the effect of diminishing, curtailing or abridging the continued expansion and growth of the physical and educational facilities at Chicago Circle Campus,

but rather to strive toward attaining higher and more meaningful excellence in its educative programs and expand to cover all relevant areas of undergraduate and graduate education in the Chicago Circle Campus.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

Court Decisions.

Also communications from the Law Department addressed to the City Council, signed by Howard C. Goldman, Daniel Pascale and Edmund Hatfield, Assistants Corporation Counsel, and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

Earl D. Mosley, Plaintiff-Appellant, v. Police Department of the City of Chicago et al., Defendants-Appellees, United States Court of Appeals for the Seventh Circuit, No. 18021. On October 29, 1970, the United States Court of Appeals for the Seventh Circuit filed a declaratory judgment reversing the judgment of the District Court in favor of the defendant and remanding with direction to grant plaintiff injunctive relief. This was a declaratory judgment proceeding brought under the Civil Rights Act to enjoin enforcement of Chapter 193-1(i) of the Municipal Code of Chicago.

LaSalle National Bank, Trustee et al., Plaintiffs-Appellees, v. City of Chicago, Defendant-Appellant, Appellate Court of Illinois, First District No. 53422. On October 30, 1970, the Appellate Court of Illinois, First District, affirmed in part, reversed in part and remanded with directions the judgment of the Circuit Court of Cook County. The plaintiffs filed an action for a declaratory judgment to declare the Chicago Zoning Ordinance invalid as applied to the subject property, and to permit their proposed plan for development of said property.

Newark Electronics Corporation, Plaintiff-Appellee, v. City of Chicago, Defendant and Counter Plaintiff-Appellant, and Speedway Wrecking Company, Defendant and Counter Defendant-Appellee, Illinois Appellate Court No. 52891. On October 23, 1970, the Illinois Appellate Court affirmed the judgment of the Circuit Court of Cook County against the City. The plaintiff sued the city and a co-defendant for damages based on the alleged negligence in permitting a water valve to rupture and flood plaintiff's basement. The trial court dismissed the co-defendant and found the City solely liable. The City sought review in an effort to gain indemnification from the co-defendant. The Appellate Court however, held that inasmuch as the trial court had found the co-defendant free of negligence he could not be held liable by the city.

City of Chicago, Plaintiff-Appellee, v. Peter Earle, Jr., Defendant-Appellant, Illinois Appellate Court No. 55141. On October 30, 1970, the Illinois Appellate Court dismissed an appeal from a judgment in favor of the City. The Appellate Court granted a motion of the City to dismiss the defendants appeal on the jurisdictional ground that notice of appeal was not filed in apt time.

People of the State of Illinois on the Relation of Civic Restaurant, Inc. Plaintiff-Appellee, v. William T. Prendergast, City Collector; Richard J. Daley, Mayor, City of Chicago, Defendants-Appellants, Illinois Appellate Court No. 53546. On October 23, 1970, the Illinois Appellate Court reversed the judgment of the Circuit Court of Cook County awarding a writ of mandamus which required defendants to issue business licenses to the plaintiff. The Mayor and the City Collector had refused to accept plaintiff's application and fees for licenses on the ground that the applicants were not the true owners of the corporation and that the actual owner was not of good character and reputation and not qualified to hold a City license. The Illinois Appellate Court in reversing the judgment, noted that the city official's assumption that the business was being operated under a subterfuge was justified by the evidence.
